No non-Government Advertisements: A Gov Internet domain may not be used to advertise for private individuals, firms, or corporations, or imply in any manner that the government endorses or favors any specific commercial product, commodity, or service.

No Political or Campaign Information: The Gov Internet domain is for the operation of government, not the political, political party, or campaign environment. No campaigning can be done using .gov domains. The Gov Internet domain websites may not be directly linked to or refer to websites created or operated by a campaign or any campaign entity or committee. No political sites or party names or acronyms can be used. Separate websites and e-mail on other top-level domains (TLDs), such as .org, will have to be used for political activity.
