The

Government Information Center

FIND OUT MORE

THIS IS WHAT WE DO

The Government Information Center (GIC) helps citizens connect to their government via the Internet. The GIC assists state agencies, divisions, and local governments with the creation and maintenance of their websites. We also help lead the statewide Common Look & Feel (CLF) branding initiative.

WEB & GRAPHIC DESIGN

We design websites, logos, and branding materials for State of Delaware entities. Our goal is to make things easy and simple for the citizens of the First State.

COMMON LOOK & FEEL

State of Delaware websites are unique in that they are governed by a Common Look & Feel design standard that is both developed and maintained by the GIC.

DELAWARE.GOV PORTAL

The homepage for the First State, Delaware.gov is a web portal that serves as a simple single-source of information about and for Delaware state government.

MUNICIPALITY WEBSITES

The GIC provides design and training assistance to local governments, including designing and hosting responsive websites in a content management system.

Welcome to the Delaware Supreme Court

The Delaware Supreme Court is the highest court in the State of Delaware. The Court has final appellate jurisdiction in criminal cases in which the sentence exceeds certain minimums, in civil cases as to final judgments and for certain other orders of the Court of Chancery, the Superior Court, and the Family Court. The Supreme Court has discretionary jurisdiction to issue writs of prohibition, quo warranto, certiorari, mandamus or to accept appeals of certain non-final orders or certified questions. Learn about oral argument procedures in the Supreme Court.

DATA

- Must be available and accessible
- Must allow re-use and redistribution
- Anyone can use the data for any purpose

VISION

- Open, accessible, accountable, and transparent government
- Informing, involving, & empowering citizens
- Citizens, businesses, and governments collaborating, diagnosing, and solving problems together
- Fueling innovation and entrepreneurship and contributing to job creation
- Promoting delivery of efficient and effective services to the public

NOT INCLUDED

NOT PERSONAL DATA
The focus is on non-personal data - which does not contain information about specific individuals.

NOT CONFIDENTIAL DATA
For some kinds of government data, security restrictions may apply.

NO PRICE
Data must be freely available

About/Meetings

The Delaware Open Data Council is made up of ten State Agency representatives as named in Executive Order #57. Other representatives of state agencies are welcome to join, even if the agency was not specifically named in the Executive Order. Council meetings are free and open to the public.

The Council representatives include members from:

- Governor's Office
- Technology and Information (DTI)
- Government Information Center (GIC)
- Health and Social Services (DHSS)
- Office of Management and Budget (OMB)
- State (DOS)
- Natural Resources and Environmental Control (DNREC)
- Services for Children, Youth, and Their Families (Kids)
- Transportation (DelDOT)
- Education (DOE)

Upcoming & Previous Meetings

DATA SETS AND COLLECTIONS OF INFORMATION FROM STATE AGENCIES

A repository for links to various open data sets published by the Delaware Government Information Center and other Delaware agencies. This is not meant to be an exhaustive list; many agencies maintain large and open collections of data. There is also a large collection of state government RSS feeds which provide regular news and information updates. If you know of data sets that should be linked-to from this page, or if there are data sets you cannot find that we can help you with, please let us know.

Data Priority

	A	B	C	D	E
1	Category	More Information	Response	Prioritization	Points Assigned
2	Strategic Initiatives of the Governor's Administration	Does this dataset show progress on a strategic initative?	Y/N	If yes, add 10 points	
3	Issue Areas	Does this data provide insight on key issues for your agency?	Y/N	If yes, add 10 points	
4	Public Interest	Is the data frequently requested? If quantifiable, please note.	Y/N, Value	If yes, add 10 points. Add 10 more points if you have quantifable requests.	
5	FOIA	Is this data frequently requested via FOIA?	Y/N	If yes, add 10 points	
6	Data sharing among State Government	Can publication of the data facilitate collaboration with other state agencies?	Y/N	If yes, add 10 points	
7	Cost of Maintaining Data	Does your agency spend signficant funds on maintaining data, if so, then there is a high likelihood that others would like access to it.	High/Low Spend	If high spend, add 10 points	
8	Dataset included in Open Data Census	The US Open Data Census contains some of the more highly requested datasets across the country and is a good indicator for public demand https://usopendata.org/2015/11/16/census/	Y/N	If yes, add 5 points	
9	Data Readiness / Ease of Publishing	Is the dataset ready or close to ready to be published? Are these data already being published, but not in a central, organized location and in open format? Is meta data readily available?	Y/N	If yes, add 5 points	
	Data Quality	Rate the data on: structure, completeness, consisitency, and refresh rate.	Structure, Completeness, Consistency, Refresh Rate	For each area, add 5 points	Structured data (i.e. in a database, spreadsheet) Complete data (are there gaps in data?) Consistent (are there inconsistent addresses making location harder to define?) Refreshed (are there existing processes to

Metadata

Field	Justification	Definition	Permitted values
Title	Title helps discover and select datasets	Human-readable name of the asset.	Text with character limit.
Description	Description helps discover and select datasets as well as differentiate between similar datasets.	What the dataset describes. Provide a longer description of the data that can be readily understood by non-technical users.	Text with character limit.
Category	Category provides a distinct navigation method and groups similar datasets together regardless of source	The category of the data set identified by the list of possible values. If a data set can fall into multiple categories, select the one which is most significant. This list will be subject to change on an ongoing basis.	Drop down menu. Categories predefined.
Responsible Agency/Department	Organization name is needed for navigation and to ensure a single responsible agency or department.	The agency/department that collects and manages the data as the canonical source.	Drop down menu. List of agencies/departments predefined with acronyms
Data dictionary	Data dictionaries are essential to understanding how the data can be used, whether it is to understand fields, differences in fields, and assessing whether or not the data is appropriate for the intended use. Data dictionaries should be published in csv and pdf format	Data dictionary should explain the fields within the dataset in terms of their definition, type, size, and any other pertinent information that describes the dataset	attachments in the form of .csv format and pdf
Last updated	Last updated gives an indication of the recency of the data, which helps users determine if it is appropriate to use	Most recent date and time when the dataset was changed, updated or modified.	TBD - goal is: ISO 8601: YYYY-MM-DDThh:mm:ss.s (as much as is relevant to the dataset) or, to reflect continual updating, ISO has duration standards like P1D for daily and P2W for every two weeks
Frequency - data change	Together with the publishing frequency, this gives us an indication of our timeliness; It also gives data users insight into the rate of data change for planning and use.	Frequency with which dataset changes.	Not updated (historical only), Yearly, Quarterly, Bi-monthly, Monthly, Bi-weekly, Weekly, Daily, Hourly, Continuous
Frequency - publishing	Together with the data change frequency, this gives us an indication of our timeliness; Understanding the	Frequency with which dataset is published.	Not updated (historical only), Yearly, Quarterly,
